Area 2 Details

CW Go/No Go Decision

- CW Station Master
 - ✓ Owns equipment plan and sourcing for equipment including tents and power
 - ? Responsible for lining up ***Firmly Committed Operators***
- ***Criteria for Go: Enough CW Operators to fully staff 20m & 40m stations for the 24 hour Field Day period***
- Final Go/No Go **Decision Next Meeting, Tue May 29th**
 - Decide based upon online sign-up of operators

We are a GO!!! Great Work Mike and Team!!!

Station/Computer/Networking Party

A starting point....

- *Held Computer, Networking, and Radio Setup Party Yesterday*
- At Party
 - Tested out SDR and networking racks
 - Installed N1MM+, setup logger and network names, test scoreboard
 - Tested combinations with radio, CW, and audio gear
 - First test with CW Skimmer
 - Challenges with digital stations...
- Remaining
 - Sort out how FT8 will work and setup macros on WSJT-X computers

Thanks to Dave and Valerie for hosting us all day on Sunday!

Skimmer Plans

- Antenna, feedline, SDR, & computer? – ***SDR/Computer, W1CBD; Antenna and Coax, AB1OC***
- Software Requirements – ***CW Skimmer Server***
- Interface to N1MM+ to share spots - ***complete***
- Do we need to get together ahead of again to test expanded BW setup? - ***TBD***
- Band hoping strategy vs. time of day - ***TBD***

FT8 Plans

- FT8 is a new weak signal mode that has taken Amateur Radio by storm!
- We will be using WSJT-X setup for FT8 with modified messages to support Field Day exchange
- Digital computers will have WSJT-X software available
 - All Field Day Bands – 80m – 10m
 - Can use standard and xx.090 operating sub-band windows
- WSJT-X will log directly into N1MM+
 - ***Operator procedures for setup and use at each digital station need to be followed***
- More to come at Tech Night
- *Give it a try!*
